

AIDAS CARTRIDGES

Repairs after Warranty

An important notice to all Aidas Cartridges product owners having their products purchased before 2020 (or have their 1-year warranty expired):

In case of Aidas cartridge failure of any type, please contact Lithuanian laboratory directly using email aidascartridges@gmail.com. We make repairs and also refurbish cartridges if needed (even older Aidas models).

Please DO NOT send your cartridge to the sellers that are not a part of Aidas Cartridges distribution network anymore as this may result in failure to repair or even cartridge loss. Our distributor network is listed on our website www.aidascartridges.com.
